*These organizations are part of the NOLA-PS LEA (Local Education Agency), meaning that they can receive more direct support from the district, but have less autonomy than if they operated under their own LEA. For these schools, the district manages their state reporting, assessment, special education services, and school nutrition. Schools that are not direct-run or contract schools pay the district for this service.

• **NOTE:** All schools listed above align with official site codes from the state. A single site code equates to a single school. However, many schools with a single site code serve students across multiple campuses (such as Willow School). For the 2025-26 school year, Foundation Preparatory Academy and Esperanza Academy will be operating as a single PK-8 school, Esperanza Foundational Academy, across two campuses. The two schools will officially become a single school with a single site code for the 2026-27 school year.

29 Total non-profit charter organizations under NOLA-PS
Non-profit charter organizations are groups that oversee individual or networks of charter schools. Each organization has its own board. They are responsible for the operations, staffing, finances, and administration of the schools under their purview. They have a contract (or charter) with NOLA-PS, which ensures they are meeting accountability standards. NOLA-PS operates the Leah Chase School directly.
